Consultation

We believe it is important for us to meet with all of our couples so first we set up a scheduled time for us to do so. We take this time to get to know the two of you and your wedding. This time also allow you to ask us any questions you may have, go over our packages, and see the many albums and products we have to offer.

How to book with KV

A \$500 non-refundable retainer and a signed contract is required to reserve your date. Then we are all yours!
The remainder of your package is due 2 weeks before your wedding.

Engagement Session

We were able to meet at the consultation but the engagement session gives us the opportunity to work together before the wedding. This may sound silly, but couples that use us for their engagement photos will be more relaxed and at ease on the day of the wedding.

Traveling Expenses

All of our packages include travel time and mileage within 100 miles of Cedar Rapids, Iowa. Any location further is billed at 50 cents per mile. Weddings more than 2.5 hours away from Cedar Rapids will require overnight accommodations for the photographer and their assistant.

Viewing Appointment

After your wedding you'll be dying to see your images for the first time! Approximately four weeks after your wedding you will receive an email to view your images on kvphotoonline.com. After viewing you'll be able to select your favorites, place a print order, give your photographer feedback, and most importantly share your images with friends and family!
